With the American Headquarters in Korea, July 21. Allied troops today began an offensive on Korea's East coast against Communist held Yongdok after the big guns of two cruisers, one British and the other American, had smashed up the town.

### Gallant U.S. defence Taejon described With the Americans on the Tacion Front, July 21. Taejon has been captured by the North Koreans and the

story of its defence can now be told-a story of outnumbered and cut-off Yanks fighting their hearts out against overwhelming odds and claiming a deadly price in blood for each yard of the burning city that they were forced to give up.

If courage and determination had been the only factor Tarjon would still be in American hands but unfortunately they were not. There were other important things like ammunition, communications, supplies and thousands upon thousands of North Korean infantrymen who gave the red-eyed Americans no chance to rest and kept filling the holes that the Yanks knocked in their ranks. .

The North Koreans bossted that they would march victoriously into the former temporary capital with bands playing and colours flying on July 16. The Red radio boasted: "The victorious people's army will be welcomed by cheering niobs of loyal Koreans." The Reds were a little late in getting to Taejon and they crept in through every covering building they could find to shield them.

The American fire was vigorous and the Communists were welcomed by a hall of bullets and mortars that left many a North Korean dead or gasping as he tried to get at the dug-in

But the 19th did its work well and it took the Communists four days to patch up the two divisions that the 19th had dealt with so harshly.

Sir.—I have the pleasure to send you herewith a copy of the "China Matt" of September 30, 1919, with a vivid photograph of the then Governor, Sir Reginald Stubbs, in full uniform, who made an official landing shortly after his arrival in the Colony.

It was very interesting to reread your genuine leader (an Open Letter to the Governor), and the welcome address by the ate Sir Paul Chater.

In pre-war time I had the habit of keeping newspapers, especially those with speeches by past Governors on landing here, for they generally had something good to say before entering on their administrations.

### YORKS AT HEAD OF TABLE

London, July 20. Yorkshire's victory inside two days has sent them to the top of the County Cricket championship table with 120 points, but they are certain to be joined by Lancashire tomorrow as their Northern rivals are assured of first innings points and could get the full points for victory, which would put them eight points in front of Yorkshire.

Warwickshire and Surrey, the two other main challengers for the leadership, have slipped in the current series, both being in arrears on the first innings.

An improvement in batting tomorrow, however, can put Surrey in the hunt, for they got rid of all but one of the Gloucestershire's second innings wickets comparatively cheaply today. Close of play scores:-

At Bristol: Gloucestershire 187 and 159 for nine. Surrey 151 (Constable 58 not out, Cook, left-arm slow spin bowler, four for 15). At Harrogate: Yorkshire beat Leicestershire by 10 wickets. Lejcestershire 115 and 168. Yorkshire 214 (Walsh, left-arm spin powler, five for 44) and 71 for no wicket.

At Swansea: Lancashire 137 (Watkins, left-arm medium bowler, four for 27) and 78 for slx wickets. Glamorgan 96 (Tattersall, right-arm medium offspin bowler, seven for 28).

At Birmingham: Warwickshire 261 and 14 for no wicket, Somerset 371 (Lawrence 53, Tremlett

At Dudley: Worcester 342 (Kenyon 163, Walker, right-arm fast medium bowler, four for 13) and 18 for three wickets. Hampshire 246 (Rogers 57). At Dublin: Gents of Ireland 100 (Martin 61, Harvey, right-arm

legspin bowler, five for 59) and

10 for no wicket, Notts 151 (Boucher, right-arm offspin bowler, five for 63). At Lords: Royal Navy drew with the Army in their two-day match. Royal Navy 135 and 224 for seven declared (Hammond 80). The Army 178 for six declared and 146 for seven.—Reuter.

#### SPEEDWAY LEAGUE

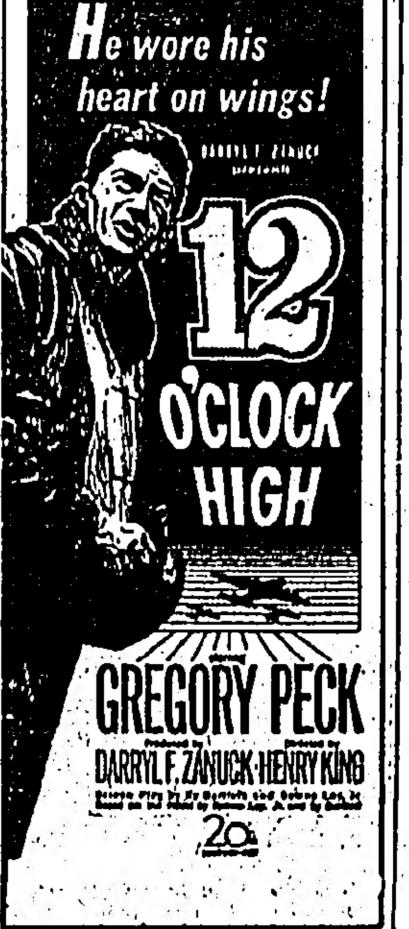

London, July 20. Belle Vue, Manchester, beat Wembley in a National Speedway League match at Wembley tonight by 45 points to 39. Washington, July 20. President Truman said today that the United States cannot safely ignore the possibility of a Communist attack in some part of the world besides the Far East. Mr. Truman issued a formal statement after a conference at the White House with the Becretary of State, Dean Acheson, and Charles Spofford, New York attorney who was sworn in as American representative on the new Atlantic Pact Executive Committee.—United Press.

Call-up joit

I will telescope the rest of the New York news. Truman's order calling up men between the ages of 19 and 25 if the Armed Services need them has joited this city. The apprehensive are beginning to hoard.

Last week there was no plan for air-raid precautions. This week there is silly talk about evacuation of the city. The men who were twiddling their thumbs a few days ago now begin to wring their hands. No one is ringing bells.

There is definitely no hysteria but there is plenty of high blood pressure. Very few are buying city property just now, and the cancellations of air and steamship trips to Europe are bigger than the companies admit.

# RUSSIA BLAMED FOR SLOWING COMMUNISM

Belgrade, July 21. Marshal Tito's new Ambassador to Washington, M. Vladimir Popovich, blames the Kremlin for slowing up the spread of Communism by adopting a foreign policy hardly different from the "imperialism" of the United States.

In an article published in "Kommunist," the organ of the Central Committee of the Yugoslav Communist Party, he expresses the opinion that Western capitalism is on the downward

If only the Soviet Union, permanent anti-Fascist and dehe adds, would adopt a genuine socialist foreign policy and give "democratic and revolutionary movements" in the world a chance, a third World War would be avolded and the expansion of Communism speeded up.

As it is, Russia's (policy of "spheres of influence" and "aggressive hegemony," especially her disregard for the equality of rights between large and small many countries" a rallying point for opposing Communism success-

M. Popovick's article would seem to confirm that Yugoslav Communists, in spite of their break with the Cominform, have not modified their hostility to Western Capitalism nor their belief that it is doomed to eventual collapse and replacement by World Communism.

Their quarrel appears only to be that the Soviet leaders are attempting to turn Communism into an instrument of Russlan national power and expansion, and thus, in a way, sabotaging their own avowed creed.

M. Popovich, who before his new appointment to Washington. was one of the Yugoslav Assistant Foreign Ministers, is regarded by Western diplomats here as perhaps the most influential figure in the Yugoslav Foreign Officon after the Foreign Minister, M. Edward Kardeli.

#### Same danger

Other views expressed by M. Popovich in his article are: The Yugoslav Communists were right about the United States. but wrong about Russia. American foreign policy has been, and continues to be, cribed as "socialist."

events since the entry of the M. Popovich also claims to

mocratic basis." He attributes this to the fact "progressive democratic movements such as the Socialist

Unity Party" are completely subordinated to the interests of the Soviet Occupation and "often have to defend measures which have nothing in common either with the democratic transformstion of Germany or with the equality of the German people." The process of democratic

transformation has, he says, been imposed from above "by order of nations, is giving "reactionaries in the occupying forces and without actual support of the wide masses of the people." The Government of Eastern Germany is not the result of free

elections but is nominated-and its first action was to postpone the elections for the year although, according to the Constitution, they were supposed to be held in 1949. District elections, too, which

were due to be held in 1948, were postponed first until 1949 and then until the autumn of this year. Much the same thing has happened with elections for the provincial assemblies. Washington, July 20. Powerful Congressional majorities were forming rapidly today to give President Truman crisis appropriations and wartime controls. Tremondous tax increases will come later.

The Administration's call to arms will raise this year's Government spending to about \$57,-400,000,000 and invite a tax increase of \$5,000,000,000, perhaps more:

If World War III or further laofated outbreaks are being plotted in Moscow, yesterday's call to arms is only the beginning in men, money, controls and restrictions.

None here challenged the urgent need for huge new defence appropriations. But there are Congressional doubts, misgivings and almost despair; that controls and the enormous tax burden about to be placed on the American people will bear heavily upon their backs for years to come.

Chairman Robert Taft of the Senate Republican policy committee told newsmen after Wednesday's regular meeting that consignees of cargo are hereby the controls requested by Mr. Truman seemed to go what were necessary at th moment.
